TOWARDS VICTORY

S. Lithiya, II M.A. English

Kamaraj College (SF)

So far, I had gone through many difficulties in my life. I had overcome many sorrows. In my childhood, I had more difficulties than happiness. Currently I am doing my master degree (M.A Eng. Lit). This college, where I'm doing my master degree is much better. Despite my curiosity, my difficulties were a

barrier for my education. Generally, I don't want to share my hardships with anyone. I don't have any motivators even in my family. So as a girl, I really felt very hard to overcome all these.

I found a soul few years back. He is the one who motivated me and supported me to continue my higher studies and all the efforts I made. Now I have begun to cater to my own needs. Even though I have many people disturbing me. I tackle them to overcome all hurdles. I just don't keep any such disturbances in my mind. My focus is just on my goal. My desire is all about education and my contribution to the society.

For the past four years, I have been taking tuition in my house. Even though I have my own needs, I don't receive money from the students below the poverty line. My desires is my higher education and teach others what I've learned in my life so far. I just love my teachers because I want

TOWARDS VICTORY

Kamaraj College (SF)

to be loved by my students when I teach them in future.

The soul I mentioned before, made me understand that my desires should not be only a dream. He gave me self-confidence and we are planning to set up our own academic centre in the future for the students below the poverty line free of cost. The only person behind my success is that soul.

So, my opinion of life is based on my own experience and I say that you cannot fulfil your dreams without self-confidence. Push yourself with your own efforts, not depending on anyone.

WHY THE YOUNG

GENERATION HATE THEMSELVES?

M. Ajay Kumaran, III B.A. English

Kamaraj College (SF)

Nowadays the youth hate themselves because they store unwanted things in their mind. Most of them are mentally affected through things like cinema, videogames, bad habits and unhealthy relationships. Most of the movies appreciate crime. The leads of these movies are rowdies, thieves and sometime

terrorists. The youths want to follow the hero's activities. In some movie the hero drinks and smokes stylishly. So, their fans follow them. The videogames also appreciate crime. In Delhi, a young man killed his own family. The reason for those murders was that his mother and father did not allow him to play PUBG. This game is played by killing many co- gamers with their friends through the smartphone. Five years ago, ten people collected money to buy a single ball to play cricket. In the current period a single man has money to buy ten balls but there is no one to play physical games.

The youths put unwanted pressure on their mind. Some people broke their 15,000 smart phones for losing in a 50MB game. Youths love to enjoy their life by drinking and smoking. They thought it is happiness. Many youths fall in love at a minimum age. They do not know the spelling of the word love but they want to

love because they believe that love is an important part of life. If the love turns into a failure, the sadness starts with WhatsApp status and Facebook post. Day by day they are deteriorating mentally.

They are always sad and angry with everyone. They lose a lot of real happiness in their life. Some youths believe that being sad is a trend. It leads to suicide. We need to play physical games, read interesting books, see comedies and maintain pets at home. Sometimes getting philosophical ideas from some unique persons, doctors and real leaders is good for our mind.

“Don't hate yourself, if you hate yourself, you won't win a single day. If you love yourself, you can win your whole life”

KATRINE

R. Rajadevi, II M.A. English

Kamaraj College (SF)

It is a calm and beautiful morning. The birds are chirping and the sun began to rise. A quiet morning filled with the fragrance of blossom flowers. There was a home. It was knocked by a young man, Felix. He was the eldest of Mr. and Mrs. Albert. Felix is back home six months after he began his research trip. Felix has two sisters. An elder sister Alice and a younger one, Katrine. Mrs. Albert warmly welcomes her son. He goes and meets his dad, usually seated on the sofa and reading the newspaper.

Felix then goes to Katrine's room to meet her, but she is asleep. He goes to meet Alice and Felix seems to be shocked. Alice lying on the bed unconscious as her hands are cut making the room the evening sky. Felix shuddered and everyone was shocked to hear about Alice. The people in the house were in a confused state.

After three hours, the police arrive and the situation is handled by the cops. They collect Alice's body and finalized it as suicide. Alice's funeral process was completed. Still, the family members didn't have any idea on the death of Alice.

On the one side, the cops kept moving on their investigation. On the other side Felix wants to know about the mysterious death of Alice. He needs to know whether it is murder or suicide. Initially, he doubted his dad and mom. They both spent lots of time with Alice at home. So nothing could have happened without them knowing. He personally investigates them. The days pass by.

After one month, Felix goes out for a walk. He unexpectedly meets his old neighbour Aqua, she was his younger sister Katrine's childhood friend. Both of them were very close. Felix discusses with Aqua about Alice's death. Aqua says she felt sad for Alice. She also said that before two months Katrine wrote some short stories and that was published in a magazine. She got too happy about her success and she wanted to share that with her parents. But her mom and dad, didn't take it as a matter at all. So she felt bad and lonely. This had made her frustrated. After hearing this, Felix feels bad and guilty.

Felix went to Katrine's room to congratulate her about her achievement. But, that time Katrine was not there, so he waited. He unfortunately opened her cupboard. There he finds a knife with blood. Felix was shocked and Katrine suddenly enters the room and takes the knife from Felix.

Katrine starts crying and she explains that she was the reason for her death. On that night both of them argued about their parents showing partiality between Alice and Katrine. She tells that her mom and dad don't care about Katrine. They only took care of Alice. This was happening in her family. While arguing, both of them go to extremes. Suddenly Katrine took the knife to threaten Alice. But unknowingly it cuts Alice hand. So being afraid of Katrine ran out from the room and went to her room with the knife. But only the next morning she came to know that Alice was dead. She was sad. Katrine admits that she never did it on purpose.

Felix calmly puts Katrine against his shoulder and tells that everything that happened only happened for some reason. He threw the knife through window and held her hand and starts walking. Felix apologizes to their parents.

Felix hid all that had happened only for the sake of Katrine. The parents should

Kamaraj College (SF)

have treated the child with same care.
“Appreciation is the medicine for all the children who achieve”. The story ends on a happy note for Katrine but, what about Alice. Reader, decide.
